PROFILE

Since 2015 I've been a full-stack developer at SIGNED - Design and Web in Esposende, and I take on selected freelance projects. My day-to-day involves Vue and Nuxt, React and Next.js, PHP, Node and TypeScript, Docker and Kubernetes and, more and more, automation with n8n and AI.

I don't take anything for granted. That's why I keep learning and trying new ways to reach goals with quality.

EXPERIENCE

SIGNED - Design and Web · Full-stack developer 2015 – Present
Custom web applications, APIs, ...

Wemake · Web designer and developer 2008 – 2015
Seven years across the innovation (layouts and schemes) and engineering departments.

OFF Systems · IT technician and web developer 2007
First professional role, between IT support and the first websites.

WHAT I DO AS A FREELANCER

Custom web applications
Client areas, back offices, portals and internal tools, shaped around your process rather than the other way round.

APIs and integrations
I connect your software to third parties: ERPs such as PHC and SAP Business One, CRMs, payments, carriers and marketplaces, over REST, GraphQL or SOAP.

n8n and AI automation
Repetitive tasks start running on their own: n8n workflows, AI model integration and document processing.

DevOps and deployment
Docker, CI/CD pipelines and Linux servers set up to ship without surprises and recover quickly.

Websites and online stores
Company sites, landing pages and online stores (PrestaShop, CS-Cart or custom) that are fast, multilingual and SEO-ready from day one.

TECHNICAL SKILLS

Frontend
Vue 3, Nuxt, React, Next.js, TypeScript, Tailwind CSS, Bootstrap, MUI

Backend and APIs
PHP, Laravel, Symfony, Slim, Node.js, GraphQL, REST, SOAP, Twig, Smarty

Databases
MySQL, MariaDB, PostgreSQL, SQL Server, Oracle, Elasticsearch, Redis

DevOps and infrastructure
Docker, Kubernetes, Helm, Terraform, GitLab CI/CD, Jenkins, Linux, Nginx, Traefik, S3

Hybrid mobile
Ionic, Capacitor, PhoneGap, Android, iOS

ERP and e-commerce
PHC, SAP Business One, PrestaShop, CS-Cart

Automation and AI
n8n, OpenAI / Claude APIs, Webhooks, Scraping, Workflows

EDUCATION

Escola Profissional de Esposende
IT and management technician, then a specialisation in web programming.

LANGUAGES

Portuguese (native)
English
